

0838-79

14 February 1979

MEMORANDUM FOR: Director, OIA  
Director, OSI  
Director, OSR  
Director, OWI  
Chief, RES

FROM: John J. Hicks  
Deputy Director, NFAC

SUBJECT: Rotational Assignment in ODE

1. Les Dirks has expressed to me an interest in having an NFAC officer resident in the Office of Development Engineering on rotational assignment. The purpose is to assist ODE officers in understanding requirements for future collection techniques as well as for modifications of present techniques and capabilities.

2. I support this kind of assignment which can be a most meaningful kind of rotational assignment serving the needs of the individual and the organization. (Besides, it is fun to tell Dirks and his engineers what reality is all about).

3. I suggest that you give consideration to individuals who are knowledgeable of military, scientific or technical intelligence matters -- persons who can be counted upon to work well at involving other NFAC officers and their knowledge in the ODE processes. Obviously, persons considered should be of promising potential. You should be confident that your nominees will be easily reassignable -- following the ODE assignment -- by reason of their known competence. I do not suggest any particular constraints as to grade or experience.

4. Please, each of you, send me at least one name for consideration, by 28 February 1979.

John J. Hicks
